BRAND INTRODUCTION

S is for strength, there when needed.

E is for excellence, your passion, your drive.

N is for notable, distinguished are your feats.

I is for inspire, others seek your guidance.

X is for x, the mysterious side of you.

SENIX Power Platform

From Lithium-Ion battery-operated outdoor power equipment to power tools to our corded and petrol products, SENIX has a wide selection of tools to meet your needs.

X6 60V SERIES

Embrace the Green, Unleash the Beast

Introducing the ultimate set of 60V outdoor power equipment tools and a cutting-edge battery platform engineered to fortify the landscaping game to tackle large yards and outdoor facilities, while championing the eco-conscious advantages of battery-operated tools. From precision lawn care to heavy-duty facility maintenance, our SENIX X6 cordless technology stands as our best-in-class platform, delivering SENIX's greatest power for every project.

2X2 40V SERIES

Twice the Power, Double the Results

Unlock a new level of power and performance with our 40V lineup. Harnessing the combined might of (2) 20V batteries, this category is designed to enhance and up the ante on your yard projects.

X2 20V SERIES

Light On Pounds, Heavy On Power

Discover the ideal solution for your projects with our 20V SENIX Tools. From professionals to homeowners, whatever you seek, our range of offerings is tailored to cater to your unique needs.

AC-CORDED

Hooked Up To Endless Power

Powerfully quiet. And quietly powerful. Corded outdoor power equipment tools mean quieter operation, low vibration, and reduced environmental impact without compromising the need for power.

4-STROKE CYCLE SERIES

All Muscle, No Fuss

Patented 4QL technology. Unidirectional quantitative lubrication that prevents flooding, leaks, and keeps the motor lubricated in any direction. Featuring a 4-cycle engine that is lightweight, smooth, and powerful, and does not require mixing oil with petrol, the SENIX 4QL is our inaugural line of products.

GAS SERIES

Straightforward power, Unstoppable performance

SENIX gas-powered products are built for professionals and homeowners who demand reliability, power, and efficiency.

SENIX X6 60V BRUSHLESS ***ZERO TURNING MOWER***

HYBRIDTORQUE

An intelligent plug-in hybrid system that combines the silent, eco-friendly benefits of lithium batteries with the powerful endurance of petrol. With PDU (Power Distribution Unit) intelligent control, it seamlessly switches power sources to deliver high-efficiency performance and extended runtime.

RANGESYNC

An intelligent range-extending system that dynamically adjusts generator operation based on battery SOC (State of Charge), ensuring safe and efficient charging while optimising endurance and performance.

HYBRID vs PETROL

- Compared to the petrol ZTR, the Hybrid ZTR is more economical quieter and enviromentally friendly to use.
- Compared to the petrol ZTR, the hybrid ZTR has a simpler design structure, which equals large labour saving during maintenance.
- The Hybrid ZTR is powered and controled by an electric motor and operaing system, providing users with an enhanced driving experience.
- Saving at least **1.98USD/Acre**.

HYBRID vs ELECTRIC

- Compared to the battery powered ZTR, the Hybrid has longer run time, with a working time range of 6-8 hours of battery and fuel power!
- Compared to the battery powered ZTR, the Hybrids petrol generator and battery simultaneously supply power to the motor, providing greater mowing power than a pure electric vehicle.
- The petrol generator of the ZTR provides power to the motor whilst charging the X6 batery packs, these can be used immediately with full charge on the entire X6 range!

ROBOTIC LAWN MOWER

Ultrasonic Module
(Optional)

USER-FRIENDLY LED DISPLAY

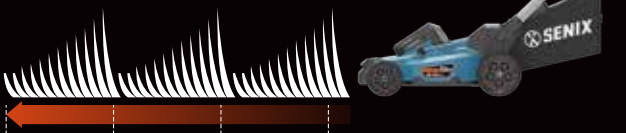

With the digital LED display, users can easily know what the mower is doing, and following the troubleshooting instructions in APP, mower faults can be easily eliminated.

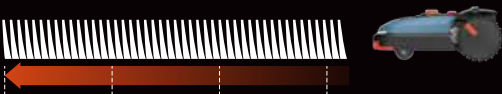

SUPERIOR CONNECTIVITY

Fully connected to the APP. You can execute the most common commands such as start, stop, and get status updates from Robomower via APP.

30-60MM

BOUNDARY CUT

Robomower first mows along the boundary wire so as to cut as close to the lawn edge as possible. Leave the minimum manual trimming effort.

NARROW PASSAGE MANAGEMENT

Robomower automatically senses narrow passages and finds its way even through narrow passage, instead of getting lost or stuck and finally dead there with an empty battery.

MULTI-ZONES MANAGEMENT

A uniform cutting result throughout the lawn thanks to the possibility to start the mowing at eight(max.) different remote locations along the boundary wire, out from the charging station. The larger lawn area, the better and more important with several starting points.

20V HYBRID COOLER/WARMER

FEATURES

- Use the included divider to divide the inside of the cabinet into two rooms. Different temperatures can be set for left and right depending on the application.
- Powered by 20V battery (single or two in parallel).Can also be powered by 12V/24V cigarette socket or by AC adapter.
- USB and TYPE-C output port, Fast charge your smartphone.
- LED display for clear display of inside temperature and battery fuel gauge.
- Carrying handle and large caster wheels, easy to move.

4QL

GAS

ALL MUSCLE NO FUSS

Patented 4QL technology. Unidirectional quantitative lubrication that prevents flooding, leaks, and keeps the motor lubricated in any direction. Featuring a 4-cycle engine that is lightweight, smooth, and powerful, and does not require mixing oil with petrol, the SENIX 4QL is our inaugural line of products.

All-Direction Use

Mix-Free Fueling
No Mixing of Fuel and Petrol
